Figure 1

Every call that is made to the Helpline Center is tracked and noted by type (fig. 2). A majority of calls received are information inquiries (last night’s lottery drawing, room reservations, etc.).

September 2019 saw an increase in intake calls, with 89 in August and 108 in September. *The calls received by the HelpLine Center labeled “Lottery” and “Casino” are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*

Intake Calls YTD 2019

Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. **For the month of September 2019, the total number of intake calls was 108 (fig. 3).**

The Council has received 131 chat and text requests for help to date in 2019. This is in addition to the 814 phone calls requesting help so far in 2019.

Figure 3

One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Slots and other casino based games were the activity named during the majority of calls in September 2019 (fig. 4). This may be related to high visibility of the Helpline number throughout each of the 12 casinos that currently operate in Pennsylvania.

Figure 4

Pennsylvania Helpline for Compulsive Gamblers

This month, Philadelphia and Allegheny counties accounted for nearly 28% of intake calls. In September 2019, the Helpline saw Berks, Chester and Delaware counties make up an additional 14% of intake calls.

Caller's Gender		Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	CALLS
Female		30	31	27	25	24	38	31	28	39				273
Male		71	44	68	57	57	53	61	61	69				541
Unwilling		0	0	0	0	0	0	0	0	0				0

On average in 2018, the percentage ratio of female to male callers/subjects was 36% to 64%. 2019 shows that approximately 34% of helpline calls are regarding female gamblers.

Ethnicity of Caller		Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	CALLS
African American		12	9	12	7	12	17	8	10	11				98

Other		1	0	0	1	0	1	1	0	0				4
Unwilling		0	3	3	11	3	2	3	9	5				39

While studies have shown that Caucasian males gamble the most overall, it has been found that African-American males gamble most frequently and, unfortunately, develop problems at a very high rate. This disorder can impact people of all backgrounds, yet for some cultures, outreach for help is very limited.

In November 2015, the Council on Compulsive Gambling implemented a ‘chatline’ and ‘text for help’ option into the existing Helpline Services. Like the Helpline, the chatline and text options are available 24/7 and provide an additional level of anonymity for those who may not be ready to physically verbalize the issues they are experiencing. Since the program began, we have seen continued use of these services and are pleased to offer another available resource for individuals seeking assistance.
